

Product Information

TJM AIRTEC SNORKEL 2008+ LANDROVER DEFENDER

AVAILABLE MARCH

TJM have just released the new TJM Airtec Snorkel to suit the 07+ Land Rover Defender.

This new snorkel is designed to compliment the look of the vehicle while offering some practical benefits.

Here's four great reasons to fit a TJM Airtec Snorkel:

1. Fitting a TJM Airtec Snorkel means the air supply is drawn from roof level providing cooler and cleaner air to the engine.
2. Because the air supply is drawn from roof level, dust is not as thick and plentiful as in the engine bay or inner guard. This will help extend the life of the air cleaner element, therefore reducing the wear of vital components.
3. With the positively sealed TJM Airtec Snorkel, well above water level, you can expect worry-free water crossings.
4. When driving along the open road, the TJM Airtec Snorkel creates what's known as a ram air effect, that has often been found to increase engine performance.

DESCRIPTION:

Land Rover Defender TJM Airtec Snorkel (Diesel Only)

PART NO:

011SAT0138D
